Online lecture with Uriel Kashi

Discussion on the current situation in the Middle East

Uriel Kashi, a historian and tour guide, explains the complex situation in the Middle East in a very differentiated way and would like to enter into dialogue with students at Grabbe-Gymnasium

In his lecture, Uriel Kashi sheds light on the most important historical, geopolitical and social developments that have led to the current situation. He will talk about the Islamic Revolution in Iran, the Arab Spring and global challenges such as climate change and resource conflicts. A central topic is the situation in Israel and Gaza, including the impact on the region and international politics.

We would also like to invite you to take part in this presentation. If you are interested, please send us a short e-mail and you will receive the link for the online discussion.

New information board at the court synagogue

Official inauguration

A few days ago, an information board was erected on Bruchmauerstraße that provides an overview of the history of the Hofsynagoge. This is the city's response to a citizens' request. In addition, the Society for Christian-Jewish Co-operation has now placed the exhibition "On Jewish Traces" back at the Bruchmauer Gallery.

We would like to introduce you to both and would therefore like to invite you to Bruchmauerstraße on Wednesday, 9 July at 5 pm. Dr Oliver Arnhold, Chairman of the Society for Christian-Jewish Cooperation, will explain the exhibition; Mayor Frank Hilker will provide information about the information board.

Court synagogue in the WOW-Show

Presentation of the thesis by Amelie Lütke-meier

In the WOW-Show, the work show of the students of the Detmold School of Design, graduates of the architecture, interior design and urban planning degree programmes present their theses from the last semester.

At this event, architecture student Amelie Lütke-meier will also be presenting her thesis - "Hofsynagoge Detmold - Gedenkkultur durch Nutzung" - at the TH OWL Detmold. She has created an interactive vision for the future of our special Detmold building.
